**(865) 588-6406, Attn: Referral Coordinator. Please attach patient registration, copies of patient's insurance cards, and relevant medical records. We will contact the patient to schedule.**

The Behavioral Medicine Institute, p.c. (BMI) is a group of practitioners specializing in the application of the biopsychosocial model of health and disease. We provide evaluation and treatment of the psychological aspects of physical disorders and of stress-related disorders. BMI clinicians also treat the full range of general mental health disorders. We offer empirically-validated assessments and treatment programs for a variety of problems.

We routinely follow a collaborative care model, coordinating our work with the patient's other medical providers. We are also experienced in the integrated care model, with several of our satellite offices located within other area medical practices.
